General Guidelines for returning items or equipment for service

- 1. Request your RMA number(s) prior to shipping any items for repair
- 2. Do not include unnecessary items with the shipment
- 3. Do not include batteries with the shipment (dangerous goods!)
- 4. Include a list of items being returned
- 5. Include a malfunction report (if applicable) with each item being sent to our service department
- 6. If more than 1 device is sent for service or for recurrent safety inspection at once, please pack and mark each set (device and related accessories) separately!

Each set needs to be marked with the serial number of the device
